NON TECHNICAL INTRODUCTION

ACTIVITIES

Intra Project Consultants was established in the Year 1994 with a view to serving Industry solution centric Products. Since inception we are representing world renowned MNC's in the field of instrumentation like Level, Flow, Pressure & Temperature measuring instruments as well as Range of Process Valves (Control, ESD and On-Off application). Besides we also cater to the product pertaining to the Environmental analysis such as Water, Gas & Air monitoring with Pollution Board connectivity For Plant Safety and also to avoid human hazard we also offer Gas Detection System.

An in house service facility with timely back up from Principals reduces downtime of plant during malfunction of instruments.

We serve major industries like Power Plants, Steel Plants (Integrated, Sponge Iron, Pellet and Ore Beneficiation), Oil Refineries & Petrochemicals, Aluminum Refineries and Smelters, Fertilizers, EPC contractors. Some of our Valued Customers include NTPC, SAIL, IOCL, MCCPTA, DVC, NALCO, NRL, Tata Steel, Vedanta, JSW, JSPL, Rashmi Group, Rungta Mines, Super Smelter, Shyam Group, Mc Nally Bharat, SEB, Matix Fertilizer, Indorama etc.

CUSTOMER COMMITMENT

Intra Project Consultants focus on "Total Customer Satisfaction", by way of catering to their maximum needs. From 'selection of instrument' to 'guidance during installation' is our part of Service, we ensure to all customers. We have a dedicated Service Team to look after Commissioning and Calibration matter.

Over the years, IPC evolved from an instrumentation supplier into a turnkey instrumentation solutions provider. Along with representing several globally renowned manufacturers, we now offer complete instrumentation packages, including engineering support, supervision, commissioning, and after-sales service, serving customers across power, metals, oil & gas, cement, chemicals, pharmaceuticals, food & beverage, and other process industries throughout India.

Flow Measurement

Continuous Level (Radar, Guided Wave Radar, Ultrasonic, Capacitance, Electro-mechanical, Nucleonic)

Level Measurement

Continuous Level (Radar, Guided Wave Radar, Ultrasonic, Capacitance, Electro-mechanical, Nucleonic)

Point Level (Capacitance, Vibrating, Conductive, Nucleonic)

Pressure Measurement

Pressure Transmitter, Differential Pressure Transmitter, Fixed Type Pressure Transmitter

Temperature Measurement

Temperature Transmitter (DIN Rail Mounted, Head Mounted, Field Mounted), Temperature Sensors

Liquid Analysers

pH, Conductivity, Turbidity, Dissolved Oxygen, Chlorine, Silica, COD, BOD, EQMS with connectivity

Gas Analysers

Process Gas Analysers, TDLS O2 analyser, Continuous Emission Monitoring System, Ultrasonic Stack Gas Fowmeter, Ultrasonic Flowmeter for Custody Transfer, TDLS O2 Analyser, Dust Monitors

PRODUCT PROFILE

VALMET, FINLAND

Control Valve
On-Off Valve
ESD/ESV Valve
Ball Valve
Butterfly Valve
Globe Valve
Segment Valve

Eccentric Plug Valve
Knife Gate Valve
Pinch Valve
Pneumatic & Electric Actuators
Valve Controllers
Power Cylinders
Limit Switches

CASHCO, USA

Industrial Regulators (Pressure Reducing & Back Pressure Regulators)

Vapor Control Products (Tank Blanketing, Vents, Flame Arrestors)

Control Valves & Sanitary / Steam Products

LAMTEC, GERMANY

Sensors and Systems for Combustion Technology

Compact Flame Scanner

Ignition and Pilot Burner and High energy Ignitors

Burner Control System

Modular O₂ , H₂ /CO Measuring System

SERVOMEX, UK

GAS ANALYZERS

Process gas analysers; Purity analysers for Industrial gases and Semicon; TDLAS Analysers; Combustion Analysers; Portable Analyser for O₂ and CO or CO₂.

TELEDYNE

GAS & FLAME DETECTION, FRANCE

TELEDYNE
GAS AND FLAME DETECTION
Everywhere you look

Gas Detection

Portable & Fixed Monitoring System

Fixed monitoring system,
Flame Detectors and Controllers.

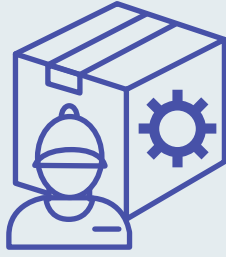

Portable Gas Detector for Combustibles (LEL or CH₄), NH₃, CO, CO₂, H₂, H₂S, NO, NO₂, Cl₂, SO₂, VOC etc. almost For all industrial gases.

Hand Held Gas Detection

SERVICE PROFILE

Service Profile

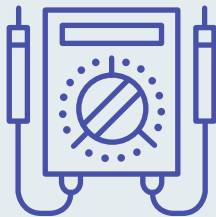

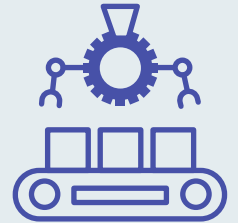

SERVICE CONTINUITY

Facility to have 24 hours backup support

FLOW VERIFICATION

Verification of Flow rate with Portable Flow meter.

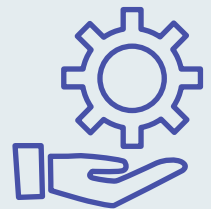

CALIBRATION CONTRACT (ON & OFF SITE)

Onsite and offsite calibration support of field instruments and gas detectors.

AMC & CMC CONTRACT

Facility to depute service personnel to execute periodic contract remotely, installation and commissioning of the system.

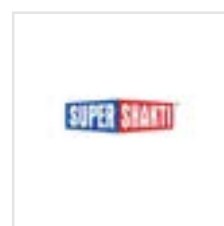

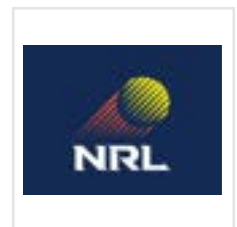

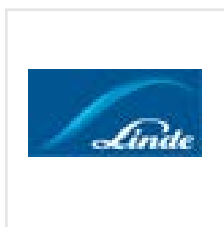

INSTALLATION AND COMMISSIONING OF THE SYSTEM

Facility to have 24 hours backup support

SERVICE TO INDUSTRY IS SERVICE TO MANKIND AND COUNTRY

SOME OF OUR ESTEEMED CUSTOMERS

Shyamkunj-2A1,
12C, Lord Sinha Road,
Kolkata, 700071, West Bengal. INDIA
